From the Price Guide Editors of Sports Collectors Digest The most accurate and practical baseball card price guide covering cards issued from the 1980s to present, is now better than ever. Collectors will easily research card values from the more than 170,000 cards listed alphabetically according to card manufacturer and set. All regular issues, inserts, parallels, and rare variations are included. Each card is accurately priced by the Price Guide editors of Sports Collectors Digest, the nation's top sports card hobby publication. Prices are based on actual card transactions from SCD's dealer network and also from auction results. More than 2,000 of the baseball card set listings include a large, clear photo of a popular player. Many listings contain a concise description of the set. All have values assigned to each player's card. The tutorial chapter provides explanations for common hobby terms and describes how to grade and evaluate cards.
