Bassett's Roseville Prices (Schiffer Book for Collectors)

Mark Bassett : Bassett's Roseville Prices (Schiffer Book for Collectors) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bassett's Roseville Prices (Schiffer Book for Collectors):

Over 130 Roseville Pottery Company ceramic lines are listed and valued in this very inclusive guide. Arranged in easy-to-use alphabetical order, each line and its most common variations are listed and priced by line number. Values are also provided by glaze color when appropriate. Among the categories featured in this informative price guide are Early Velmoss, Experimental Pieces, Keynote, Lamps, Raymor Modern Artware, Rozane Royal, Trial Glaze Pieces, and additional products not typically found in guides to Roseville. This informative quick reference works well as a companion piece to Mark Bassett's *Introducing Roseville Pottery* (1997). Listings for shapes illustrated in the 1997 publication appear in boldface, with page references. The shape numbers have been authenticated by firsthand study of Roseville pottery pieces. Rounding out the presentation is an invaluable index to Roseville Shape Numbers, c. 1916--1946, produced with the assistance of veteran researcher Lou Haggis. The Index explains the factory's original shape numbering system, which will help collectors identify and date little-known Roseville shapes. Everyone interested in art pottery, American artware, or Eastern Ohio pottery will find this a valuable reference work.
