Batik occupies a special position in Indonesia's history and culture. The extraordinary photographs of cloths and prints

in this book demonstrate why batik is the stuff of textile legend. These 71 batik designs, taken from the collection of famed dealer Rudolf G. Smend, date from 1880-1930, a time still considered batik's golden age. Complementing these extraordinary cloths are 16 vintage photo prints from the Leo Haks collection, which demonstrate how batik was worn at court and in other settings.
