Batman Collectables

Rob Burman : Batman Collectables before purchasing it in order to gage whether or not it would be worth my time, and all praised Batman Collectables:

16 of 16 people found the following review helpful. Not worth the money. Should have been called the ...By Steve GriffithsNot worth the money. Should have been called the Corgi/ some Mego collectable Book (Corgi takes up about 1/4 of the book) . For all the Batman product that is out there, this book doesn't even scratch the surface.13 of 13 people found the following review helpful. The book is a complete waste of moneyBy MDThe book doesn't include a fraction of a fraction of Batman collectibles. The author admits he doesn't own much of what is presented, and has relied on collecting friends or online sources for photos. There are instances where a Batman item is mentioned, and a non-Batman photo is shown (like with Captain Action). The book is a complete waste of money.11 of 12 people found

the following review helpful. Poor showinfBy Paul LewisNot thrilled - there are better books on batman memorabilia -
I was expecting more

Since he first appeared on the scene in Detective Comics No. 27 in May 1939, Batman has been a massive influence on popular culture. He has inspired comics, blockbuster films and television series and was second only to Superman in the top comic book heroes of all time. Alongside all of these, he has also inspired a plethora of collectable toys from the golden age of toy production in the 1960s and 1970s such as diecast cars, replica gadgets and much more. In this book, which will appeal to those who remember the iconic 1966 television series just as much as to those captivated by Batman today, Rob Burman examines some of the best and some of the most unusual Batman collectables as well as looking at what might be collectable in the future.

About the AuthorRob Burman is Editor of Collectors Gazette, the world's only monthly newspaper dedicated to collecting.
