But I guess that it does speak volumes about their popularity.As always, Fjestad's books are impeccable and beyond reproach.0 of 1 people found the following review helpful. Miss those picturesBy Mike W.As with everything from Blue Book Publications, it is better than anything of it's type, but I would give it Five stars if photos were included. Even if it added five bucks to the cost, it would be worth it to me.

The new edition covers tactical rifles, handguns, and shotguns, including 2016 makes/models. This comprehensive book includes complete model listings with up-to-date pricing for BlackOps Tech, Fulton Armory, and many other

popular manufacturers, plus a glossary of tactical firearms terminology!
