I have almost all of the books in this series, including the second edition of this book. This book includes all kinds of facts and figures about gold dollars. I bought this mainly to complete the Bowers series for my library. There is even a short section of important events going on at the same time each dollar was being minted.0 of 1 people found the following review helpful. Not what i expected.By MikeI was hoping for more pricing,rareity,etc as a coin and bullion collector. Its a great book if your looking for more detail in certain gold dollars and special years and date.0 of 0 people found the following review helpful.
