The best calendar on vintage costume!By A CustomerThis beautiful calendar features twelve different collections which have historic costume from around the world. One of the best features of this calendar is that there is a balance between costume of ethnographic groups and that of industrialized cultures. Each curator provided a brief synopsis of their collection, as well as complete information as to how to contact the curator for more information. Not only is this a very beautiful and professionally well done calendar, but it provides for scholarly contacts as well. Beautifully presented, it is full of wonderful photographs of clothing in collections of both museums and universities.
