You would still expect pricing to be proportionally correct which it isn't. The only good reference for JL's is Tomarts and it's 16 years old. O'brien's Toys Cars and Trucks isn't bad either for JL's but only dedicates 2 pages. I gave it two stars due to the good color pictures and the price I paid: \$2.54.0 of 0 people found the following review helpful. Great tool for the diecast collectorBy Boyd FiedlerThe ONLY guide for Johnny Lightning and Matchbox giving a good template for pricing. Great addition to any collectors library.0 of 0 people found the following review helpful. Not the best, but not the worst eitherBy Paul SpencerIt's got a

lot of information in it. Not the best, but not the worst either. I would recommend it if are seriously collecting them.
