[Download] Inkle Weaving: A Comprehensive Manual

## **Inkle Weaving: A Comprehensive Manual**

**Lavinia Bradley : Inkle Weaving: A Comprehensive Manual** before purchasing it in order to gage whether or not it would be worth my time, and all praised Inkle Weaving: A Comprehensive Manual:

1 of 4 people found the following review helpful. Weaving InformationBy AmoliaThere are books that one needs on hand so that when I decide to Inkle, I can renew my skills.19 of 20 people found the following review helpful. A great source for learning pick-upsBy C. VanderbiltThis is a great book for learning how to do pick-ups on the inkle loom. For each type of pick-up (horizontal, pebble weave, etc) she provides step-by-step advice. The Bress book assumed that you knew how to create a pattern. Lavinia doesn't do that. She steps you through each row from horizontal background pick-ups to pebble weave. Easy to read charts are included.After a frustrating time, someone recommended this book to me and now I wonder why I thought it was so hard.I highly recommend this book!14 of 15 people found the following review helpful. A good resource for intermediate inkle weaversBy Patrick WooleryBeginners should rely on Helene Bress' book, with its more detailed instructions on how to begin. Bradley'sbasic information is only adequate, but she expands on the basics and has some interesting and useful innovations. She includes some tricks for warping and finishing ends which make the completed band look neater. Bradley also shows how to use pick-up techniques to make every letter of the alphabet, so that you can include words in your work. Illustrations consist of diagrams and black and white photos.

Paperback book about weavingt
