By A Customer I am happy to state that I have added Joe Caro's "Hopalong Cassidy Collectibles" to my library. It is worth every penny! As a writer, I can fully appreciate the hard work that went into this study - a must for every serious collector of Hoppy material as well as the novice who wants to know originals, reproductions and items that existed only in someone's "mind". A wonderful and colorful display guaranteed to bring out even the most "shy kid" back to when America was a gentler nation and everyone looked up to Hoppy - youngsters and adults and how we all wanted a Hoppy collectibles - whether it was a flashlight or a holster set! The reading is easy, the color photos dazzling and the market values makes the cost of this book minuscule compared to knowing what the current values of these wonderful collectibles bring today! Joe Caro is to be congratulated for his exhaustive effort to make us smile again as we get re-acquainted with our hero - Hoppy! There is one drawback: Careful, partners, it'll turn you into a kid again! Job well done!
