Tells about the knifemakers and their knives, as well as the story of the city of San Francisco, how it developed, and how it related to the work these knifemakers did. The book was shipped promptly in the condition described.0 of 0 people found the following review helpful. Five StarsBy robert applebyvery informitive2 of 2 people found the following review helpful. Schoolboy Toadstickers!! Great Book!! A Must Have!!!By Trent RockI REALLY liked this book.....If you are into history AND knives then this is THE book for you!!..It has tons of pictures and illustrations....Well organized....It delves into the economic situation of SF during the period (very fascinating stuff).... A lot of the info is from primary sources which is always good....It tells the story of the California Bowie and the industry surrounding it...The author is well known as THE KNIFE EXPERT so you know the book is legit...This book is a must have for any serious antique knife collector....Oh...and if anyone knows anything about the "schoolboy toad stickers" let me know!!.....I would like to get a hold of one for my collection ;)

Paladin is proud to publish the second updated edition of Bernard Levines definitive history of the knives and knifemakers of 19th century San Francisco. These master cutlers of the American West made the most exotic, the most

costly and perhaps the most beautiful knives ever produced in the United States. Includes a price guide.
