Knives '97 (Knives, 1997)

From Brand: Dbi Books : Knives '97 (Knives, 1997) before purchasing it in order to gage whether or not it would be worth my time, and all praised Knives '97 (Knives, 1997):

1 of 1 people found the following review helpful. Directory of knifemakers and examples of current trends.By Michael P.These books are a compilation of the year's current trends in the custom knifemaking industry. They include a few articles (some of more interest to knife collectors, some to knifemakers), a huge directory of custom knifemakers, and page after page of the most beautiful knives you will see anywhere (regretably, all bw photos). As a bladesmith, I love these annuals an inspiration for design, as well as for embellishment.Like the man said, 'If you're going to steal, steal from the best!'

This is Knives '97. The 17th annual edition. A type-by-type look at what's being made.
