before purchasing it in order to gage whether or not it would be worth my time, and all praised Learning how to
crochet learn to crochet in easy steps and create your first project today:

4 of 5 people found the following review helpful. the MAGIC OF WORDSBy Jemmy LII have read crochet books in
the past and i found this book uniquely different that is why I'm giving the rating it deserve. Though the book has no

illustrations in it but overall, it can be understood on its own. Well some crochet books dont have illustrations on it and worst, you cannot understand it. but this one is different. I think that is what you call the MAGIC OF WORDS. Once you are really fond of crochets, you would really find this book very interesting. I've got the two spiral pattern with a combination of the basic things I've got and made something for my two year old kid. Well guess what, she does not only like it but she keeps on holding onto it until she sleeps. Thank you for the author's share.0 of 0 people found the following review helpful. The book teaches you how to learn crotchet from scratch ...By George CahillThe book teaches you how to learn crotchet from scratch. It begins from how to make a slip knot and how to hold your yarn and hook to how to make the difficult knots. I have just crocheted my first blanket! Thanks for this book,Elizabeth Sanz.0 of 0 people found the following review helpful. Great breakdown of stitches!By CathyHighly recommended for the beginning crocheted! Great breakdown of the stitches to make it easier to understand and get going!!!
