I am a new reborn and have been eagerly gathering all the information and instruction material that I can. Rooting the doll's hair has been difficult for me. My first doll was lucky to get hair in her head; never mind trying to do the perfect swirl or get that perfect baby look. I decided for my next doll, I wanted a detailed manual that I could refer to over and over. I have purchased DVDs and belong to forums that provide me with good rooting ideas and techniques but feel that with Jeannine's book, I have the information right at my finger tips and I can take it where ever I am working on

the doll. She does not get into much detail about the perfect swirl, which is fine by me because she provides other options that look just as wonderful and for the beginner, are easily achieved. The pictures are great help, too. I definitely believe that this is a must for the beginner. 11 of 12 people found the following review helpful. Not worth the money  
By Ollie Haney Okay from now on I am staying away from Hopler's books. If her attention to detail in the dolls is as bad as her spell checking abilities... I guess that is why her books are self pubs. In 50 pages you get one example of step by step rooting that she has already started. Yes that is what I said. In the step by step she already has a third of the head rooted. Why? That is not step by step. I found this book to be worse than her other books. You want to save \$35.? Here's the jist of the book: the angle you put the needle in the head is the way the hair will lay. Don't be misled, she does not show how to put the swirl in the back of the babies hair! I am returning this book like I did her last one. What a waste of time. Most of the book is made up of finished dolls that she has done the hair on. No instructions on how to do them, just a "LOOK WHAt I DID" type thing.

By Imurphy I can't believe I paid \$34 for a book (if you'd call it a book....more like a pamphlet) with so little detail or instruction. There are free pdf files that offer far more detail and quality than this. Very disappointed. Overpriced!! Just a bunch of photos that don't offer any type of benefit. Total waste of money!!!
