Robots Space Toys (v. 1)

Jim Bunte, Heinz Mueller, Dave Hallman : Robots Space Toys (v. 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Robots Space Toys (v. 1):

1 of 1 people found the following review helpful. Vintage Toys: Robots and Space Toys (v. 1)By Herbert TabinThis volume focuses on tin toys manufactured from World War I through to the 1970s, telling a story of toy-making impacted by focuses as divergent as changes in technology and the outbreak of war. A beautiful 200 +/- page, book featuring hundreds of full color very photos of robots, spaceships and ray guns. Topics range from Buck Rogers and Cape Canaveral, to Roby Robot, Smoking Spaceman, Space Trooper and Yonezawa items.0 of 0 people found the following review helpful. Not a bad book, but it could have been so much more.By Kenneth G. Netzell do enjoy the book being a collector of sci fi toys and robots. However, there seems to be so much left out. I mean, they don't even MENTION the Remco Lost in Space robot...he was some of the coolest plastic of the sixties, not to mention being related to a popular TV series. If you can't find it at a decent price, considering it is out of print, I would hold off until you can find it priced reasonable.0 of 0 people found the following review helpful. Five StarsBy

MacDaddyBanks.com Great book at great price and shipped quickly.
