Great Book Although DatedBy Lee CollinsBook is great for auction prices but I wish they would produce a more current version and sort the items better inside the book so they are easier to find when comparing with current items for sale. Also would like to see a soft cover version.0 of 0 people found the following review helpful. MartinAny person interested in Rookwood Pottery will find this book entrancing, both as a price guide and as an opportunity to admire great examples of Art Pottery. Of course price guides are obsolete the moment they start rolling off the presses, but the auction prices in this book will give you ballpark estimates for any similar piece you may have. Each piece of artist-produced art pottery is unique, so assigning values is difficult simply by using price guides and auction results. I bought the book

because, after owning a few pieces of Rookwood throughout the years, you can't get enough. This book is great for admiring pieces of art you may never come upon in person.

The Treadway Gallery, located in Cincinnati, Ohio, has been established for more than two decades and is known for its expertise in twentieth century American and European decorative art. The gallery serves as headquarters for an internationally-attended auction series focused on twentieth century art, including a specialized annual Rookwood auction. Collector Books is pleased to bring you this gallery's compilation of over 10 years of Rookwood auction results, from 1990 - 2002. This colorful book, filled with large detailed photographs of virtually hundreds of pieces of Rookwood pottery, gives collectors an idea of what their piece is worth. Not only are the dates and final bids for each item listed, but an estimated value range is given for the piece. Other important facts stated are approximate height, glaze, number, and condition of the piece. You will be astounded to learn what these pieces sold for at auction and how truly valuable these works of art have become. The front part of the book gives the gallery's conditions of sale and guidelines governing their results. Collectors will love this 10-year study of Rookwood Pottery by leading auctioneers in the field of ceramic art. **REVIEW:** This book highlights the years 1990 - 2002, ten years of Rookwood Pottery auction results from the Treadway Gallery, Inc. of Cincinnati, Ohio. Hundreds of pieces in full-color are presented, with information on glaze, design, date, height, number, and actual auction price realized.
