2 of 2 people found the following review helpful. Lots of interesting information!!By A. FinneyMy husband is has always been a fan of Ruger firearms and this was a gift for him. He has read it from front to back and it still isn't put on the shelf! There is lots of history behind the Sturm-Ruger story and it is told very well with lots of pictures. The charts in the back of the book are easy to read and very interesting too. A must have for any Ruger enthusiast! Now he can't wait for the version 2 to come out for the more current firearms as this book only covers thru the 1990's. Very informative book, lots of pictures, lots of history, packaged very well - overall very happy with this purchase0 of 0 people found the following review helpful.
