Excellent illustrationsBy Scott WarringtonThe hundreds of sharp and colorful illustrations make this a valuable book. There is also much insightful historical information on the weaving process and origin of designs. There are many passages where the text does not flow well or bits of information seem to be missing making it difficult to follow the writer's train of thought.0 of 0 people found the following review helpful. Five StarsBy Jan David WinitzGreat book and it arrived in great condition to be given as a gift.
