I was not that thrilled withthe book itself. I feel that the author portrayed it as a "PRICE GUIDE" and I found it had more information than it did as a Price Guide. This was of no fault of the dealer and I was very pleased with the service.0 of 0 people found the following review helpful. Santa

Dolls and Figurines By PainterlyLady This is a good book for those who would like to know the history of Santa Claus dolls. If you collect Santa dolls, there are lots of photos (black and white, and color) to help you identify makers. For me, it has been the only book on Santa dolls I have found to date, and was of great help. 0 of 0 people found the following review helpful.
