Scott 2008 U.S. Pocket Stamp Catalogue

From Brand: Amos Hobby Publishing Co/Scott Publishing co : Scott 2008 U.S. Pocket Stamp Catalogue before purchasing it in order to gage whether or not it would be worth my time, and all praised Scott 2008 U.S. Pocket Stamp Catalogue:

By Allen J. Venezia
This book has some really nice color photos and is very organized. As it is a "Scott" product, it uses the Scott numbers and is easy to use. My only concern is that it does not picture every stamp and that the pictures are sometimes 10-15 pages away from where the stamp is actually listed in the book. Still, that notwithstanding, it was well worth the money.

By Harold C. Williams
This book has just about everything you need to know about stamps. It's easy to find what you want and the illustrations are well done. For the novice, some things are not explained, such as "imperf." Don't think you could find a better one though.

Convenient pocket size catalogue that features listings and values for more than 4,000 stamps, plus full color stamp illustrations all identified by Scott Catalogue numbers. Pages designed to be convenient inventory checklist.
