Scott's Catalogue of United States Stamps Specialized. 1971

From Scott Publications : Scott's Catalogue of United States Stamps Specialized. 1971 before purchasing it in order to gage whether or not it would be worth my time, and all praised Scott's Catalogue of United States Stamps Specialized. 1971:

The Scott Catalogue of United States Stamps Specialized was an annual published for serious collectors of U.S. stamps offering a highly specialized listing of major and minor varieties. Sections included: First Day Covers, "RF" Overprints, Locals, Postage Currency, Postal Cards, Postal Savings, Proofs, Revenue Stamped Paper, Specimens and Telegraph Stamps besides the Postage Air Post, Revenue, etc. groups included in Scott's Standard Catalogue. No other catalog publishes such an all inclusive, specialized listing of the stamps of one country. The Scott Catalogue of United States Stamps Specialized does not include color photos. It does include the whole history of US stamps including Confederate States, Hawaii, Canal Zone, Cuba, Danish West Indies, etc.
