Ashford book has some ok projects but is less detailed than it should be for someone who just blew a few hundred on one of their looms and the book is uninspiring. I have found far better books to use for reference. Ashford makes great looms.....their books don't have half the quality of their products.0 of 0 people found the following review helpful. I'm a total beginner and the book has shown me the variety of projects that can be done on this simple and versatile loom.
