[Library ebook] The Basic Book of Twining

The Basic Book of Twining

Esther Warner Dendel : The Basic Book of Twining before purchasing it in order to gage whether or not it would be worth my time, and all praised The Basic Book of Twining:

2 of 2 people found the following review helpful. The Basic Book of Twining By Antoinette Sampson The book was exactly what I was looking for. I recommend it to anyone interested in basket making, especially anyone who is trying to learn new techniques to try in basket making. 8 of 8 people found the following review helpful. Native Tech By Rose This book has aided us in the craft of twining. This art form is very functional and satisfying to do. This is another great book for the beginner and intermediate. 10 of 10 people found the following review helpful. A book that makes sense By domaid Nice illustrations. I would have been lost without this book. I finally understood what Z-twist and S-twist was and how it worked. I had heard reference to the two, but could not figure out what it was. This book is very thorough. I've twined 3 bags so far, and I'm very pleased with the results.

This book teaches the basics of twining along with some of the history behind it. A great book for those interested in getting involved in this old folk art.
