The fascinating subject of handweaving is fully explored in this reference, which covers basic subjects such as warping a loom and making bobbins of weft, as well as more elaborate, highly decorative projects. Patterns are arranged by varying levels of difficulty and design so beginners and experienced weavers alike will discover new insights and concepts. Among the 40 step-by-step projects included in this volume are designs for baby blankets,

shawls, table cloths, and linen hand towels.

"Has something in it for weavers at every level, from inspiring projects to helpful tips." Handwoven
