[Ebook pdf] The Book of the Twenty-Two: The All-American Caliber

## The Book of the Twenty-Two: The All-American Caliber

**Sam Fadala : The Book of the Twenty-Two: The All-American Caliber** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of the Twenty-Two: The All-American Caliber:

0 of 0 people found the following review helpful. Four StarsBy Linda BurtonGood info for it's time period. I knew this when ordering this book.0 of 0 people found the following review helpful. One of the best books that I have read on the Twenty-TwoBy Robert I.One of the best books that I have read on the Twenty-Two. Spotlights some of the best models ever made.I would do business with this dealer again.0 of 0 people found the following review helpful. Five StarsBy Wilfred J. BaslerSuper Item

More than 3 billion 22 rimfire cartridges are pinged away every year in the United States. The 22 is king in the U.S., and a favorite around the world. Used universally for myriad tasks - from plinking at tin cans and downing cottontails and squirrels to eliminating pesty varmints and protecting explorers, campers and military personnel.THE BOOK OF THE 22: THE ALL-AMERICAN CALIBER tells all there is on every 22 rimfire and centerfire cartridge, from the diminutive BB Cap to the Winchester Magnum Rimfire (WMR), and from the mild 22 Hornet centerfire to the powerful big-game 226 Barnes.Sam Fadala discusses the arms that fire these cartridges - the handguns and rifles that will make every 22-caliber shooting encounter a success. THE BOOK OF THE 22 is a comprehensive guide to shooting that covers 22 rimfire games (including Olympic competition), target shooting, benchrest and silhouette shooting, rimfire and centerfire varminting, backcountry and survival situations, big-game adventures, and home and

camp protection. THE BOOK OF THE 22 is a reference every household should own. Because at some point, you or your teenager will ask about the appropriate firearm to use for a particular situation - to which the answer will ultimately be: "Why don't you try a 22?"
