The Book of Wheat Weaving and Straw Craft: From Simple Plaits to Exquisite Designs

Morgyn Geoffry Owens-Celli : The Book of Wheat Weaving and Straw Craft: From Simple Plaits to Exquisite Designs before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of Wheat Weaving and Straw Craft: From Simple Plaits to Exquisite Designs:

4 of 4 people found the following review helpful. Wheat weaving made clearBy S. E. AmersonWheat weaving, or straw weaving, is a rather obscure art form, but this book revives it. The instructions are clear, and there is a good resource guide.The only criticism I have is that there are not quite enough different easy projects to really give the novice enough practice to do the more complicated designs. But there is no reason why the novice can't do an easy project several times, to improve his/her technique.0 of 0 people found the following review helpful. Five StarsBy Crista S. UnderwoodExcellent book, easy to follow directions and interesting info about the history of wheat weaving.1 of 1 people found the following review helpful. Good bookBy OwlNice books, fun projects, easy instructions. Now I teach a wheat weaving class thanks to this book.

This volume of the natural and ancient art of wheat weaving and straw craft offers over 30 environmentally friendly projects. It provides step-by-step instructions and diagrams and projects include courting favours, dolls, house blessings, and decorative wall hangings.
