Doesnot tell the whole story about FLW'sauto enthusiasm....0 of 0 people found the following review helpful. Three StarsBy M and Associatesmeh. Cars were one of Frank Lloyd Wright's great obsessions, along with Architecture and Japanese Prints. The last two

have been well documented, but the Cars have not been covered at all ... until this book. This unique visual history of Wright's 85 cars and one motorcycle uses original magazine ads to describe the make and model of each vehicle. They are presented in the order in which they were purchased.
