The Case for Gold

Ron Paul, Lewis Lehrman : The Case for Gold before purchasing it in order to gage whether or not it would be worth my time, and all praised The Case for Gold:

This book is a reprint of the report of the U.S. Gold Commission originally published in the Congressional Record, Government Printing Office, Washington D. C., 1982. As with all federal government publications, this work is public domain. Paul blamed the Federal Reserve for inflation, and spoke against the banking mismanagement that resulted in

the savings and loan crisis. The U.S. Gold Commission created by Congress in 1982 was his idea, and this marvellous commission minority report was the great result.
