The Fixtures and Fittings of Period Houses, 1714 - 1939

Janet Collings : The Fixtures and Fittings of Period Houses, 1714 - 1939 before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Fixtures and Fittings of Period Houses, 1714 - 1939:

Building features and materials are being lost or replaced on older houses at an alarming rate. The appearance of this book is, therefore, most welcome for it enables the reader to identify original features and materials that have been used on houses from the Georgian period, through the Victorian and Edwardian periods and up until 1939a period when building techniques and architectural styles changed significantly.

About the Author Janet Collings is an architect who specializes in the conservation of historic buildings; she jointly runs an architectural practice and has written several books about the care of old buildings.
