A Double Winner: Beautiful Period Jewelry and The Surprising "Jewel City"By William RikerAs a person whose ancestors were part of the manufacturing jewelry business in Newark, New Jersey, I was drawn to the topic beautiful items, made during a time of great prosperity in a city, now largely discounted. The Newark of today has many bright spots which news media ignores: The Newark Museum, NJPAC and "The Rock" are worthy of recognition, and "The Glitter and The Gold" captures a slice of the past which lives on in both private and The Newark Museum collections. An excellent book for its telling the story and showing

the "glitter".0 of 0 people found the following review helpful. Five StarsBy Wayne StatzerMy wife loves this book.

Loves it.15 of 17 people found the following review helpful. Fabulous book on a topic long overdue for serious study.By A CustomerThis book covers the production of fine jewelry in the Newark, NJ area. A good variety of pieces are beautifully photographed. More importantly, the various US makers are indentified and discussed. A work of this type is essential before all record is lost of the unique contribution of these very fine and, until now, overlooked jewelers. The book is a revelation. Highly recommended. There is alot more to American jewelry than Tiffany's.

Explore this unique heritage most of us didn't even know we had.

Published to accompany the exhibition about fashioning America's jewelry shown at the Newark Museum from May 7 through November 2, 1997
